All products are marketed in India and exported to over 5 countries routinely. The company is ISO-9001-14001 certified. Products are also certified for use in organic farming in four countries.**
- **Kan biosys has a fully functional R and D department having DSIR recognition. It has launched a unique “SAP-RTD” platform for bringing innovative solutions for farmers.**

Kan biosys has strategic association with premier institutes for technology up-gradation, testing and assessment. [NCL, ARI, NRC, IARI, 25 Agricultural Universities in India]

Kan biosys

1. WIPO Gold Medal at the hands of His Excellency Vice president of India- Shri Krishna Kant on 11th May 2001. The occasion was graced by Honourable Union Minister for human resources Dr Murli Manihar Joshi. The award was presented for the development of Bio-Inoculant in liquid form with plurality of strains used as liquid fertilizer ; Bio-foliar sprays for augmentation of crop yields. This liquid biofertilizer is not only cost effective but also has a longer shelf- life as compared to solid biofertilizer. It is easier to apply and has been found to be highly effective for many crops.

2.First TECHNOLOGY DAY AWARD at the hands of Hon' Minister

for Science and Human Resource Development - Dr. Murli Manohar Joshi for outstanding invention of the year. The award was instituted by National Research and Development Corporation. May 1999

3. Leelavati Mehendale Award for best Women Entrepreneur at the hands of Mr. Madhav Jog - Chairman - Rest of Maharashtra Development Board. June 1996

4. Ramabai Joshi Award (2007) from Maharashtra Chambers of Commerce, Industries & Agriculture, Pune. for On-farm Brewing of microbes- KREF Technology.

5. Kakasaheb Supnekar Best Women Entrepreneur Award – AT

the hands of Dr Raghunath Mashelkar in 2012.
